

Class One Autumn 2

Autumn 2: A Long Time Ago - The Royal Family

Here are some of the things the children we will be learning about in topic. Please note some of these activities may change depending on the children's learning needs.

History

We will be learning about the significant British monarchs in history, with a more in-depth study of Richard III as well as drawing comparisons between Elizabeth I and Queen Victoria. The children will

become aware of significant individuals through using timelines and making comparisons between various periods in history.

Art, Design and Technology

We will be creating a sculpture using different materials that are easily found in the local environment.

Physical Education

We will be looking at how we can develop our balancing skills including a look at Yoga.

Science

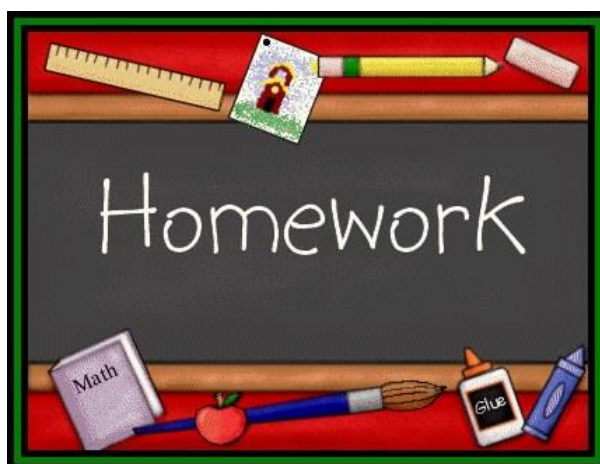

The children will learn about everyday materials including wood, plastic, metal, water and rock. They will learn to identify and name everyday materials and will have the opportunity to explore the properties of these materials. At the end the children will apply their knowledge of everyday materials to sort objects by their properties.

Religious Education

The children will learn about the importance of Christmas in the Christian calendar.

Homework

Homework: Remember to read, at least, 15 minutes a day. Your child should be reading Orange books fluently by the end of Year One. Spellings: These are given out on Friday ready for a test on the following Friday. These should be practised at home to aim for full marks. A quick reminder that the children will be taking the government's phonics assessment later in the year.

Children should now have a fast recall of number bonds to 10. Please visit websites like Topmarks to improve their recall of these as we will soon be extending our number bonds to 20!
